THERE WERE MANY BEAUTIFUL FINISHES IN YESTERDAY'S RACES

Mile and One-Eighth Run in Fastest Time Ever Made in the West. Eidelman Wins in the 2:19 Pace and Silver Tip Takes Three Minute Race

Six thousand people paid admission to the exhibition yesterday. Besides these there were season tickets, exhibitors, horse owners, etc., adding possibly another thousand, making the attendance close to the record. It is expected that the attendance for both to-day and to-morrow will crowd close on the 19,000 mark. To-day there were three sensational events in the running races and to-morrow there is the great free-for-all. No one who knows anything about horses or ever saw a horse will miss the chance to see Chestnut and Little Dacy go over the track in this race. Dacy in Indian Head the other day stopped a mile in 2:10 and Chestnut has a mark of 2:07-4 and the things they will do to that track record will be amusing. Yesterday's races were all that could be desired. The weather still continues warm but just the thing for racing. Every event on the calendar was keenly contested and the public got a run for their money all down the line. The judges still continue to be insufferably slow in getting the horses out, thereby dragging the races away along into the evening when the people want to get home, but do not care to go without seeing the finishes. The ball people have a well founded grievance against the racing officials in this respect as the races are dragged out so long that it is impossible to see races and ball game in the same day. The sensational event of the afternoon yesterday was the mile and one eighth which Figardon won in three minutes and 15.8, the fastest time ever made in the west. Lady Huron was the favorite with the public and

THE WINNERS IN THE DOG SHOW

Entries Not Large—List of Prize Winners

Director in charge, J. H. Morris. There were few entries in this department. There were some good collies, and terriers. Other classes were unrepresented. The winners were: Non-sporting dogs, terrier (fox, smooth or rough)—1, A. R. Scoble; 2, A. R. Scoble; 3, R. Worsley. Cayote hound (any cross)—1, Wm. Baxandall. Collie bitch—1, J. Richards; 2, J. Richards; 3, G. A. Hall. Collie dog—1, J. W. Reid; 2, J. Richards; 3, G. A. Hall.

CLOSED OUT THE GAMBLERS

The gamblers at the fair are out of business; all honour to the chief of police. Yesterday forenoon Chief Evans made a round of the fair and informed the operators of the gambling tables that if their operations were not stopped before his return, their whole business would be confiscated and they themselves placed under arrest. One warning was sufficient, a few minutes afterwards there was no gambling in evidence. The operators of the confidence games were lying around on their tables smoking cigars and mentally counting out how much money they had lost during the next three days with a woe-begone expression on their countenances. They looked as though they had felt the grip of the hand of the Canadian law, and were out of business.

AUTOMOBILE PARADE

There will be an automobile parade on the exhibition grounds tomorrow, the last day of the great fair, in the afternoon. All automobiles will be permitted to enter the centre ring during the afternoon and will line up there for the parade.

TWO SISTERS DROWNED

Lacombe, July 4.—A drowning accident occurred yesterday at Gull Lake, eight miles west of Lacombe, in which two sisters named Macdonald lost their lives. One of them had been engaged as a stenographer with a local firm. The other had been a resident of Lacombe for a few days, having come from Scotland accompanied by her widowed mother and young brother. They were boating.

DROWNING AT WINNIPEG

Winnipeg, July 4.—Little Alma Maddock, 10 years old, was drowned yesterday evening at River Park within forty yards of the boat house and within twenty feet of the shore. She made no outcry, and Wm. Steele, who was with her, did not see her struggling in the water until her head went beneath the surface for the last time.

MURDERER SUICIDED

Pipestone, Minn., July 4.—Alexander C. Hart, who attempted the wholesale murder at Pipe Indian training school Friday took his own life today by hanging himself in a cell at the county jail, where he was confined pending examination for insanity.

DOMESTIC SCIENCE AT THE FAIR

Lessons in the Ancient and Honorable Art of Cooking

This is a feature designed to appeal to all women who attend the fair. The department of agriculture has erected a large tent with a large seating capacity and put in charge of Miss Charlton, instructor in domestic and household science in the Women's Institute, Buffalo. Miss Charlton will give demonstrations daily in the ancient, and yet somewhat unknown art of cooking. Many ladies were present yesterday afternoon while Miss Charlton showed how many fine preparations can be made from the common potato. The Bulletin man has no hesitation in saying Miss Charlton's potato soup is "well," as well as the salads and croquettes. One of the gentlemen present said the potatoes grown here were not so dry and flaky as they were in other parts, but Miss Charlton said she found them equal in this respect to those she had used anywhere.

Today Miss Charlton will demonstrate that most important feature of housekeeping, namely, the making of wholesome bread.

Commercial Exhibits

Crowds continue to throng the main building containing the numerous products of local manufacture and other commodities distributed by our merchants.

La Palma Cigars: A point of interest is to watch the La Palma cigar made before one's eyes. The Edmonton Cigar Company has three men making this famous cigar which is rapidly taking its place with the best brands manufactured in the country. Every visitor gets a handsome souvenir, which he can smoke or not as he pleases.

Photo exhibit: Another beautiful spot in the exhibition building is Tait's photographic exhibit. This exhibit contains some of the best landscape work ever seen in this province, and would not be surpassed in any part of Canada. The exhibit is very tastefully arranged.

Mason & Risch Pianos: The exhibit in this line claim they are keeping abreast of the times and making better pianos than ever before. They claim the largest piano business in the province. They possess the only Pianola attachment and are sole agents for this instrument in Western Canada. The exhibit is in charge of Mr. G. D. Vennil, of Calgary.

A New Soap: At the south end of the exhibition building in the upstairs is found the Dominion Brokerage Co's exhibit of various grades of soap. This company is attempting to solve the difficulty of the laundry in using the hard waters found in this province, and believe they have at last produced an article that surpasses anything on the local market for rendering the hardest water quite soft for washing.

WILL TEST NEEPAWA OIL FIELD

Neepawa, Man., July 4.—The Neepawa Oil Fields Company will immediately invest in a \$3,500 boring machine and sink wells to a depth of 2,000 feet to test the indications found here. That was the decision of the Oil company trustees today.

DO YOU KNOW WEEDS?

Chief Weed Inspector Has a Tent on the Fair Grounds

Any farmer who is not familiar with the commonest noxious weeds of Alberta, should take an hour and visit Mr. A. Mitchell, chief weed inspector for the province, in his tent on the exhibition grounds. Mr. Mitchell has samples of all the common weeds that are so harmful to the farmer, especially those of the mustard class.

The idea in having these demonstrations is to instruct and warn the farmers. The trouble is the farmer frequently neglects the weeds of small things in the weed nuisance until they get the stars of him Mr. Mitchell, for instance, told the weeds gathered around him that the weed known as tumbling mustard was 150 miles nearer this district than it was two years ago, and if the farmers do not move quickly and together this weed will soon have invaded every wheat field in the province. Another weed of considerable danger was what is called ball mustard, and was practically unknown to the mass of farmers in this country. He advised shallow cultivation after the crop is removed, and grow the weed out. Among other things Mr. Mitchell advised was to cut weeds during their flowering season, when they had spent all their energy in producing the flower, and thus were more easily killed.

BRYAN IN LONDON

London, July 4.—William Jennings Bryan arrived in London Tuesday night and a visit of some foreign potentate could hardly have caused more of a furor. William Thomas Stead, austere and philanthropic was the first of a long string of visitors to greet him at the Hotel Cecil, and later in the evening members of the cabinet, among them John Burns and other leaders in British political world.

A BUSY DAY AMONG THE LIVE-STOCKMEN

Crimson General Carries the Silver Medal Given by A. C. B. Association. Arthur Ottewill Wins Special Judging Prize

The judges spent all day yesterday and almost finished their arduous tasks.

Mr. W. F. Kydd, of Simcoe, Ontario, who is judge of the horses, expressed himself as highly pleased with the exhibit. He said the various classes were up to the average of any found in Ontario. Some of the best would be hard to beat any place. Mr. Kydd said that it would be a good thing for the farmers of Alberta if some horsemen of recognized ability and authority in this line were sent throughout the country giving lectures on horse-breeding and judging, especially to the young farmers.

One of the interesting events of the afternoon in the stock ring was the contest for a silver medal awarded by the A.C.B. association for the best bull of any age in the Shorthorn class. Three splendid animals took the ring.

The contest was really between Trout Creek Hero and Crimson General. Although Mr. Golley's bull was by no means outclassed or far behind. After some fine examination and consideration the red ribbon was tied on Crimson General probably the best bull ever bred in Alberta.

In the rooster class there was a very creditable list in most of the sections. Mr. Jas. Faris of Red Deer was well to the front with red ribbons. Mr. John Turner, who figured so prominently in Monday's awards, carried off the gold medal with his fine heavy stallion.

The following is a list of the awards yesterday in the horses and cattle classes:

MANY BEAUTIFUL FINISHES
(Continued from Page One)

to-day. Samuel L. was also entered but scratched at the post. The race was between Eldman and Etta V. although both of the other horses were possible right up to the wire in every heat. Eldman won the first in 34, with Chie McGregor second; and the second in 22-1-2 with Etta V. second. The third heat, won by Etta V. in 24, was the best heat of the race, although not the fastest, and the fourth, won by Eldman in 23, was the fastest time in the harness races yesterday, giving Eldman the race with Etta V. second.

The half mile gallop was a walk away for Zaza, the little brown mare winning the first in 51-1-2, Young Pepper getting the second and Zaza getting the third in 51-1-2. Grain Trust on**The Stage**

WASHINGTON'S GRAIN INTEREST: Revelations

May Result

Washington, June 3.—An attack on road allies is the next step in the war that is now being so vigorously waged by the administration against the grain elevator trust and its illegal combinations of capital.

The attack on the grain elevator trust is a new phase. Senator La Follette has been actively engaged for some time past in getting evidence to show the necessity for government investigation of the elevator trust and the relations of the railroads with the grain elevators.

Senator La Follette called attention to the change that has come over the grain buying business from the time when the farmers brought their grain to market and the buyers would gather about the wagon and bid against each other to the condition which now exists when the farmers have to hunt up the buyers in their offices.

There is no competition now. The profits of the buyers are pooled. If one buyer purchases more than his allotment he is subject to a penalty. The purpose of this system has been to increase the profits of the dealers. In the old days the buyers' margin was about one cent per bushel. Under the conditions brought about by the grain trust it is from three to five cents per bushel. The farmer now has no alternative. He must sell his grain to one of the elevators at his local station.

The senator explained the operations of the trust, how it controls the grain from the time the farmer comes in with it to the elevator to the time that it is finally disposed of in the foreign market. He went minutely into the subject and explicated the working of the system, explaining the difference between "local" and "line" elevators.

He demonstrated how completely the farmer is compelled to submit to the tortion of the trust by accepting whatever price is fixed for him. Continuing, he said:

"It has been stated as a result of the investigation made by the industrial commission that the general grain producing sections of the country have been divided and that territory has been partitioned out to certain elevator companies, and that these companies have been given the monopoly of the grain business by an alliance with the railroads."

"The weight of testimony taken shows that on the Rock Island road Charles Counsellman has been given an inside privilege which enables him to obtain a substantial monopoly of the grain buying along that road, and the Peavey Company has such privileges and connections with the Northwestern railroad. Upon the Chicago, Burlington and Quincy and the Chicago, Milwaukee and St. Paul roads the Armour elevator company maintained exactly the same control of the grain buying business, the Santa Fe gives a like indulgence to Mr. Richardson, and the Union Pacific and the others give similar privileges to the Peavey elevator company."

"Since the introduction of this resolution I received a communication from several individuals which I shall submit to the senate. They demonstrate the existence not only of the special privilege granted to particular firms and individuals giving them a monopoly of the grain buying business, but show that these elevator companies, after they have obtained a monopoly on a given line, become identified with the railroads and railroad management. There is every indication of joint ownership in the trade that is thus built up between these privileged elevator companies and the railroads, to the great detriment of the farmers who produce the grain and are entitled to have a free and open market in which to sell it."

THE LID DOWN

he lid is on at the track. Yesterday morning Chief of Police Evans went down to the exhibition grounds and notified all the gamblers to shut up or be shut up themselves. The chief took the action on his own responsibility without waiting for any instructions from higher up. Yesterday all was quiet in the gambling line and the bookies had the only financial game on the grounds.

ATLANTIC STEAMER LONG OVER-

DUE

New York, July 4.—More than a hundred persons are sitting in the rain outside the offices of the Kaiser Line anxiously awaiting tidings of the steamer America, thirteen days overdue, and which has not been heard of since it left the Azores. The steamer should have reached here June 20th. The sister ship, Madonna, which sailed a week later, reached quarantine this afternoon. Her commander stated that he had followed the route which years of the line always take, but saw nothing of the America. The news of the latter's non-appearance threw the passengers of the Madonna into a frenzy. They wept and wrung their hands, and the ship's officers said all they could do to prevent a serious panic. In the list of the America's avenge are many emigrants bound for the Canadian Northwest. One of the theories is that the America may have crossed the path of the derelict schooner LeLizze Chadwick and been in collision with it.

WEDNESDAY, JULY 4, 1906.

THE FAIR

"Edmonton's big fair" has been running two days under the most favorable auspices and with every appearance of unqualified success. The weather has been ideal, the crowds large and both the exhibition and the entertainment justify the attendance. A four days fair for a city the size of Edmonton looked on the first blush like a large undertaking. The reputation of the fair and the program of attractions announced however served to bring out good crowds for the earlier days and the manner in which this reputation has been sustained and the promises made good will doubtless maintain the public interest to the close of the exhibition. The added dignity of the first "Provincial" exhibition doubtless has had a large influence in the attendance and the visitors from the towns along the two railway lines will probably be more numerous today and tomorrow than heretofore. Regardless of announcements and advertisements the popular belief obtained that the "best days" of a fair are the closing days and the long established rule will probably hold this year that the banner crowd will be admitted on one of the two later days.

In the large attendance and general success of the exhibition the people of Edmonton have an interest both direct and indirect. The fair this year is being run under the auspices of the city. The grounds were leased by the city and the fair is being managed by the old association for the city. Any deficit must of course be made good by the city. The ratepayers have therefore a very real and direct interest in the success of the fair and to them it should be very gratifying that the appearances are for a very satisfactory balance sheet when the gates are closed.

Besides this there is the direct financial benefit derived from having thousands of visitors spend a few days in the city, under circumstances in which visitors expect to spend, intend to spend and do spend more money per head than in casual visits when no celebration is on.

But Edmonton's interest in the fair is much greater than the pecuniary loss involved in a deficit for the year, or the direct financial gain to the city from one fair. The Edmonton fair has become recognized throughout the

west as one of the really great annual celebrations between the lakes and the mountains and wherever the fair has become known it has been a drawing card to Edmonton. The success of an exhibition and the value of the exhibition to its town depends not on the high water mark reached in a particular year but on the average which is maintained year by year. A comparatively small town may either by bad management or mistaken enterprise, present for one or more years a fair so splendid that it is altogether beyond its ability to maintain the pace. The inevitable consequence is that succeeding exhibitions must drop below the former standard and the consequences of this retrocession will be more far reaching and more permanent than those from the extra effort of the preceding years. A "good" fair is taken by the public as a kind of guarantee of an equally "good" fair each succeeding year and when this guarantee is broken the popular disappointment will be quite as general as was the popular enthusiasm over the exhibition which established the guarantee. The general trend of an exhibition is taken as an index of the general trend of the community in which it is held. An exhibition which signals a fall in one year to reach the mark made in preceding years is taken as evidence of a collapse in the prosperity formerly enjoyed by its community and a fair which is popularly known or popularly believed to be on the down grade is taken as a not less certain sign of the decadence of that prosperity. On the other hand the exhibition which expands annually with every appearance of healthy normal growth is regarded as a fair representation of the material advancement of its tributary district and constitutes one of the most practical and continuous advertisements for that district. The real interest of Edmonton and the Edmonton district in the fair is not that the fair this year should far eclipse all previous exhibitions, but that the fair should each year be a little better than its immediate predecessor.

One way to estimate the value of a thing is to count the cost of its loss, and a not unfair way of judging the value of the annual fair to Edmonton would be to consider what it would have meant to Edmonton to have never been known as the home of the fair, or what it would mean to Edmonton today to not be so known throughout the west. Western Canada has now a score of cities and towns straining every effort for supremacy. Whatever may be the ground taken by her contemporaries, Edmonton has been willing to stand or fall by the real merits of the district of which this is the metropolis. No better means can be devised of representing those merits than by an annual exhibition which is an exhibition in fact as well as in name—an occasion on which the best that the country produces in every line of industry is exhibited. This should be the central idea of the fair and whatever attractions and entertainments are found necessary to get people to the fair should not be permitted to obscure the fact that the event was originally and ought always to be an "exhibition" of the products of the country. If such is kept steadily in the foreground the complete value of the fair will be realized; if it is lost to view the real and essential business of the exhibition will be gone and however enjoyable or financially profitable future celebrations might be they would lack the gold benefit to the community of a display of its products to the increasing crowds which will annually gather at the fair.

STRATHCONA NEWS ITEMS

The Bulletin's Daily Budget From the
Sister Town

Strathcona, July 3.—Mr. Grant, who has been occupying the pulpit of the Baptist church, Strathcona, in the absence of the Rev. Corey, has left town and gone to Winnipeg. Rev. Mr. Corey is expected to be home ready for next Sabbath's duties.

Mr. McFadden was in town today from the Cooking Lake region. He reports good crops in his section and good available land there for settlement yet.

Mr. Mulholland, late organizer of the Royal Templars of Temperance, will at an early date go into the real estate business in the new store built by the Douglas Bros. near the new Plintdealer office.

Mr. Tuttle, who is located in the Pembina region and who in company with his brother, is acting in locating settlers in that district, reports that they have located one hundred land seekers, already this season, and that the settlers who are located are well pleased with their future prospects.

The Department examinations are now being held in the Grandin street school. Three candidates are writing for first class certificates and about a dozen are writing for second class certificates. Mr. Ellis, public school inspector, is presiding examiner.

Mr. Norman McLellan, who is a brother of Mr. J. McLellan of the Dominion Hotel, and who was so seriously injured in falling down an open hatchway in the Dominion Hotel, some weeks ago, left on the southbound C. & E. train for Calgary en route for B. C. where he has large business interests. Mr. McLellan will be absent a few weeks at least and will return and reside in Alberta as he has large business interests here also.

W. H. Martin & Co., late of Toronto, who for some time have located with Gallagher & Gibbs, real estate, near the Dominion hotel, are moving today into more commodious quarters in Mill's block, Whyte avenue. These gentlemen find their business increasing at such a rate that larger office room is an absolute necessity.

Getting Ready For The Rush

C. N. R. adds Rolling Stock to Handle
the Crop

Winnipeg, July 4.—The Canadian Northern Railway company is adding this season 1,500 box cars, 1,000 flats and 16 new locomotives to the rolling stock equipment of the western end of the system. Six of the locomotives have been delivered by the manufacturers and the balance will, it is expected, be in commission by the middle of August. The delivery of grain cars begins this month and the entire 1,500 will be on hand ready for service by the time the crop starts to move.

HUSBAND SHOT PARAMOUR.
Bristol, July 4.—As the train was pulling out of the Union passenger station in this city, bearing Mrs. Nita Orr, wife of John J. Orr, of Bristol, and George S. Jones, who were about to elope, and with deadly aim deliberately shot Jones in the back three times, all the shots taking effect and from which he died some hours later. Mrs. Orr left on the train for the east and it is not known where she has gone.

Manufacturers Wanted Skilled Laborers

But Want Preston Fired For Supposedly Doing What They Wanted

Ottawa, July 3.—A motion was made in the House today on going into supply by Mr. Monk to have W. T. R. Preston removed from office. Mr. Monk reviewed the evidence before the committees of the House in regard to this matter and said that Preston having been instrumental in sending skilled laborers to Canada against the policy of the government should be removed from office.

Mr. Oliver said that the charges which had been levelled against the government had dwindled down to a very nice point and they were now merely asked to remove one Preston to another position. The Minister said that the matter was one which would be carefully inquired into and justice done. He said that improvement was necessary. Several speakers followed and the amendment was lost 39 voting for and 89 against, a government majority of 50. Mr. Oliver during the discussion showed that the Canadian Manufacturers' Association had been pressing in 1903 upon the interior department to get agents in Britain to send out skilled labor and now their friends wanted Preston dismissed for doing what they wanted him to do.

Ottawa, July 3.—The steamer Arctic with Capt. Bernier in command, will start for Hudson's Bay and the far north on Saturday next. The Arctic will visit Fort Churchill and Fletterton on Hudson's Bay and will afterwards proceed through Hudson's and Davis straits to Lancaster Sound, will call at Ponds Inlet, the headquarters of the whaling expeditions. It will be the duty of Capt. Bernier to collect customs duties and see that the foreign whalers have licenses. The idea is to assert Canadian authority in the distant lands. Capt. Bernier may take a run north as far as Cape Sabine. Major Moodie will go north with a supply later on and will visit the police posts on Hudson's Bay.

CHURCH TOWER COLLAPSED.
Hamburg, July 4.—The Great Church of St. Michael, with a spire 456 feet high, was destroyed by fire today. The tower in falling crushed and set fire to neighbouring buildings. Four workmen engaged on repairs were killed.

WERE MARRIED IN EUROPE.
New York, July 4.—Mrs. Thaw flatly denied the alleged statement of Mr. Bedford before he died that that the Thaws were not married in Europe. "I was married to Mr. Thaw while abroad," she said, "and before the ceremony took place in this country. When the proper time comes I will produce proof. All statements to the contrary are untrue. If Bedford said we were not married I am much surprised, but don't believe he said it."
THAW'S MOTHER IN LONDON.
London, July 4.—The steamer Minneapolis, which Mrs. Mary Thaw, mother of Harry Thaw, was a passenger, arrived at Tidbury dock today. Mrs. Thaw had heard nothing of her son's predicament of being in a cell to answer the charge of murder. Capt. Gates, of the Minneapolis, was informed by wireless telegraphy before the vessel landed, but was asked to see that the news was not broken to Mrs. Thaw. The

Earl of Yarmouth, Mrs. Thaw's son-in-law, went down the river in a tug to meet the steamer and greet Mrs. Thaw. The Earl of Yarmouth made a special appeal to newspaper men who gathered on the dock and waited Mrs. Thaw's arrival, not to tell her what had happened, saying that the shock might prove dangerous. He said the countess would tell her mother. Yarmouth showed signs of great nervousness. Mrs. Thaw was dressed in deep mourning and looked ill.

\$ THE GREATEST OPPORTUNITY \$

The investing public of Edmonton have had placed before them for a considerable time is that of purchasing a block of one of the finest west-end properties ever placed on the market at extremely reasonable prices and on very easy terms.

Frontage on
Jasper Ave.

NORTH JASPER PLACE

Frontage on
Jasper Ave.

Is certainly one of the choicest suburban properties lying to the West of the City. Stands beautifully high, commanding an open view of the city and has the advantage of frontage on the recognised, business section, namely, Jasper Avenue. At no distant date this property will be in great demand as a Choice West End Residential Location and with a street car service will prove one of the greatest investments offered this season.

STOP AND CONSIDER

Get in on the
Ground Floor

North Jasper place has been very carefully subdivided by the Dominion Land Surveyors into Blocks, each containing twenty full sized lots of 150 feet x 50 feet. The streets are 66 feet wide and the lanes 16 feet. With the property sub-divided in this manner there will be no trouble in the future about allowances for streets, etc. The same cannot be said of many of the sub-divisions. Our advice is to buy a block, half block or quarter Block of this property, and buy it NOW, as there is nothing like getting in on the ground floor.

REASONABLE PRICES

EASY
TERMS

With the view to giving the small investor an equal opportunity to that generally offered to the man with greater means, we have decided to offer a limited number of quarter and half blocks at the wholesale price. This will be readily appreciated by all who have only a small amount available for investment. We have quoted the very lowest possible figures on this property and from present indications the whole sub-division will be sold within the next thirty days. Prices must be advanced next week.

Budget of Western News

Nanton News: Rev. John Fletcher, of Knox college, Toronto, has arrived to take charge of the Presbyterian congregation of Cayley and vicinity.

Ponoka Herald: Complaints are being made regarding the amount of destruction which coyotes are working upon farmers. It is said that they are more plentiful this year than for a number of years back. The suggestion is made that hunting expeditions be organized, with a view to exterminating as far as possible.

Innisfail Province: A rather serious accident occurred at the Catholic church on Friday morning. The workmen were at work on the building, standing on a scaffold about twelve feet high, when it broke, and one man was precipitated to the ground, sustaining rather serious injuries. He is now rapidly mending, however, and will soon be about at his duties.

Innisfail Province: A large bear was brought into the town on Tuesday last, by a gentleman who did not know that there was a law against catching these animals. It was taken back to the creek from which it was caught and let loose. This was the first specimen that we have ever seen. These animals are getting very scarce nowadays, and this one caused quite a bit of excitement in town.

Ponoka Herald: A proposition is agitating the community of Morinside to no small degree, viz: the growing of sugar beet, and the establishment of a factory in that town. Several parties who came from localities where the beet has been successfully grown, declare that the soil is exceptionally well adapted, and all that is necessary is for the farmers and other people to get together in order to push matters.

Nanton News: J. M. Bender having resigned as sub-agent here for the Dominion lands, J. W. Martin came up from Lethbridge Saturday to inspect the office and take charge of the books after which he posted a notice that the office was closed and business could be transacted at the High River agency. Mr. Martin informed the News that he found the books and accounts and everything in connection with the office here in first class shape.

Didsbury Pioneer: A meeting of the taxpayers was held in Hembell's hall on Saturday evening last to discuss the advisability of authorizing the overseer to borrow a sum of money to erect a telephone system for Didsbury. The committee who had charge of finding out the cost of installing the system reported that it could be erected for \$2,200, and the overseer was instructed by the taxpayers to borrow that amount and go ahead with the work.

Innisfail Province: Some men seem to take a great pleasure in degrading themselves to a level with beasts of the field; but the lowest of the low, and the climax, was reached on Tuesday evening, when a strong able-bodied man took hold of his father, an old man of three-score and ten, and unmercifully whipped him, then, not content with that, had to go bragging about it. We are not much given to brute force, but we are pleased to say that this man was properly "pounded" himself just a few minutes after by a man who did not believe in seeing an old man knocked about, even if the whipper should happen to be a relation.

Innisfail Province: The body of the daughter of Mrs. LaMarsh, drowned in the Red Deer with her mother last week, was previously found among the ruins, was found about two miles down the river from the ford, almost at the identical place where the body of the unfortunate mother was taken from the river. Immediately on hearing of the recovery of the body, the coroner, Dr. George, left for the scene of the accident, and after investigation decided that an inquest was unnecessary. The double funeral took place on Sunday afternoon. Rev. W. Reid, Baptist minister of Innisfail, having charge of the services.

Innisfail Free Lance: Word has come to hand of a sad accident in the Three Hills country. Some men were digging a well which they had put down about 80 feet. It seems that they were in the habit of locking the digger down, with a

rope, he gripping the rope with his hands. While he was being lowered one morning and was about half way down he let go his hold and fell to the bottom. His brother then determined to go down to see what was the matter, and when nearing the middle of the well he called for those on top to pull him up, as the well was full of gas. When near the top his strength gave way, and he fell to the bottom. The people on top got grapping irons and got one of the men nearly to the top when his clothing gave way and he fell again to the bottom. We have not been able to learn whether the bodies have been recovered.

No Danger From Immigrants

Winnipeg, July 4.—Paul Staes of Liege, Belgium, who has been making a four months' tour of the Dominion, and has been closely studying conditions here thinks that the danger from invasion of all classes of foreign immigrants is greatly exaggerated. "I hear a great deal in the west about the foreign peril," he said, "but you needn't fear a European invasion. The immigrants you get are readily assimilated and within two generations they are more Canadian than Canadians themselves. I have talked with foreigners of many nationalities and they are rapidly becoming Canadianized while in all cases they are happy and contented and would not think of returning to Europe."

BOOKIES FINED.

Toronto, July 4.—Richard Jackes, Frank Beer, Herb Frankland and John Allison pleaded guilty when arraigned before Judge Winchester to making "handbooks" on the races. They admitted being keepers of gaming houses. Each was fined \$200 or three months in jail and were required to provide sureties of \$1,000 each for good behavior. Fines were paid in three cases out of the four. The money seized on the men when arrested was confiscated. Abe Orphen went surety for all four for each of \$1,000. Judge Winchester said: "Prisoners, you have been the means of ruining many young men. You should try to help men to lead honorable lives instead of dragging them down."

Alex. C. Rutherford, Premier of Alberta

(From the Advance, Kemptville, Ont.)

The Oddfellows' hall, Kemptville, was the scene of an agreeable social gathering last Friday evening, the occasion being a citizens' "At Home" to the Hon. Alex. C. Rutherford, premier of Alberta and his wife. During their residence in Kemptville Mr. and Mrs. Rutherford won the esteem of all our citizens, their career in Alberta was watched with friendly interest and news of their success was received with joy. When the Premier and Mrs. Rutherford came east on a visit the happy idea was conceived to tender them a citizens' "At Home" so that all our people might have an opportunity to meet and greet them. The Oddfellows' Hall was appropriately decorated for Friday evening's function, flags, bunting and streamers being in great evidence. Across the front of the hall was stretched a mammoth streamer, bearing the inscription "Welcome to Alberta's Premier, Our Former Fellow Citizen." The hall was filled by several electric fans, and in the evening an enjoyable one.

After luncheon, the toast list was proposed. Dr. A. J. Jones officiated as chairman. The King's health was honored first and the National anthem sung after which the toast "Our Guest," was proposed. "He's a Jolly Good Fellow" was sung with gusto and the Chairman read the following address:

The Hon. Alex. C. Rutherford, Premier of Alberta:

Your many friends in Kemptville and vicinity, on learning of your visit to the east, have gladly availed themselves of the opportunity of meeting you, and your esteemed wife once more.

As it would be impossible for you to see and greet your old friends individually, it was suggested that we have an "At Home," where all could have the pleasure of meeting you and Mrs. Rutherford, and renewing old acquaintanceships in this our Oddfellows' hall, which you took such an active part in establishing.

During your residence in Kemptville you made many sincere friends and always took an active part in everything that was for the public good and for the progress and benefit of our village.

In the practice of your profession, it has been observed that it was always your aim and endeavor to restore amicable relations and secure "Peace with Honor" rather than continue litigation.

You will observe that many changes have taken place in the appearance of our village since your removal to Alberta, granolithic pavements, municipal electric lights, telephones as well as modern plate-glass fronts adorning our business places, all denoting progress and prosperity. But, alas! other changes have taken place. Although many new faces appear, some well-remembered ones have gone over to the silent majority, particularly three ardent friends of yours, Angus Buchanan, John Cohn, and Oliver Bascom, absent though not forgotten.

We have been delighted to hear of your progress, professionally, socially, and politically, first as a member of the Territories, then as speaker of the same body, showing the esteem in which you were held by your fellow-citizens, and lastly, when the new province of Alberta was created, you had the very great honor conferred upon you, of being elected as a premier, a position which we are confident you can fill with ability and discretion.

That in the near future you may ultimately attain the proud position of Lieutenant-Governor of Alberta is the earnest wish of your former fellow-citizens.

Wishing you, Mrs. Rutherford and family, continued prosperity, health and happiness, we remain your sincere friends and admirers.

The citizens of Kemptville and vicinity.

Premier Rutherford replied. With thanks for the kindness of friends and good words regarding his former life in Kemptville, he began. Then followed a highly instructive address on his own province of Alberta, its area, climate, resources, rapidly increasing population, educational system and chief industries. The premier waxed enthusiastic in reference to this baby province and predicted a glowing future of sunny Alberta.

Mrs. G. Howard Ferguson, on behalf of the ladies of Kemptville, and vicinity, presented Mrs. Rutherford with a beautiful floral offering, which was appropriately acknowledged.

The toast "Canada" was next proposed. "The Maple Leaf Forever" was sung and Dr. C. F. Ferguson ex-M.P. responded eloquently.

Miss Archibald rendered a selection, at the piano, and received well merited applause.

A letter of regret was read from Postmaster Cochran, who was unable to be present.

"The Parliament of Canada" was the next toast, coupled with the names of Dr. Wallace, ex-M.P., and Mr. G. Howard Ferguson, M.L.A.

The health of "The Professionals" was honored. Rev. John Chisholm, Rev. W. H. Stevens, Rev. W. E. Reynolds, Mr. Geo. E. Kidd, of Ottawa and Dr. Reddick of Winchester responded. The toast company rose to join hands in singing "Auld Lang Syne." Miss Archibald being the accompanist. The National Anthem was then rendered in hearty fashion, and the gathering dispersed.

SPECIAL DISPLAY OF LADIES' COSTUME SKIRTS At Hudson's Bay Stores

We have just received a large shipment of ladies' skirts. These we purchased expressly for the forthcoming holiday trade at very low prices.

We are now prepared to give you the full benefit of this transaction. Ladies' Grey Tweed Skirts, nicely pleated and extra full, will be on sale at \$4.00.

Ladies' light grey tweed skirts, all prettily piped and trimmed with cloth covered buttons, are to be offered at 55c.

Misses' grey tweed skirts, sizes 28, 29, 30 and 32, will be sold at \$3.50. These are just the thing for girls' school wear.

Ladies' accordion pleated skirts, made in navy, black and cream lustre, will be on sale at \$7.00. This style is absolutely the latest.
